*CLAIMS: The following is a listing of all claims in the application with their status and the text of all active claims.*

1.—115. (CANCELLED)

116. (NEW) A tall shopping cart, comprising:

- A. a plurality of merchandise containers, and
- B. a tall dual-rail spine divided into upper and lower segments, each segment containing parallel left and right rails, said segments connected by a locking hinge, to enable folding for compact stowage after removal of containers, and
- C. a plurality of ledges affixed to the cart, each ledge positioned upon the cart to sandwich a container between a ledge and a lock, the lower of said ledges affixed to the cart at a substantial predetermined height, and
- D. a plurality of quick-attach and quick-detach locks, each lock a slidably mounted block bridging the distance across the spine's dual rails, enclosing each rail, and sliding along those rails, each block fitted with a projection positioned to sandwich a container wall between said projection and said tall spine, enabling a small woman to easily lock loaded baskets by sliding the lock straight down the cart's dual spine, and releasing equally easily by sliding the lock back up, and
- E. a plurality of wheels, each attached to the tall spine by a leg.
